### Experience

SGDS Gruppen AB, Frontend developer, november 2022 - current

I am working as a frontend developer as a part of a larger team consisting of multiple SCRUM teams. Apart from being a developer I am also the SCRUM-master of the development team which I am a part of. The product I am working on is a B2B E-commerce platform.

**Skills used:** Vue 3, NuxtJS 3, Tailwind, TypeScript, GraphQL, Jest, Vitest, Cypress, Contentful, Sentry.

Bucket Media AB, Fullstack developer, january 2020 - november 2022

I worked as a fullstack developer creating websites and applications for small and medium sized companies. Projects include E-commerce sites, course platforms, administration applications, static websites, CMS driven websites.

**Skills used:** React, NextJS, GatsbyJS, Hugo, NodeJS, ExpressJS, MongoDB, Sanity, Contentful.
